

WORLD SHORT-COURSE CHAMPIONSHIPS 2016

Windsor, Canada December 7 - 11

AMENDED SELECTION POLICY [as of June 21, 2016]

1]

Swimmers may be considered for selection for the 2016 World Short-Course Championships in the following ways:

Swimmers who represent Denmark in the 2016 Olympic Games will be considered for selection to the team. In addition, swimmers who achieve the Danish Olympic qualification times at a FINA recognised competition in the period between the end of the Danish Open, April 17 and the end of the swimming programme at the Olympic Games on August 14, 2016 will also be considered for selection.

Swimmers who achieved the qualifying times at the 2015 European Short-Course Championships will also be considered for selection.

Swimmers who hit the short-course standards in the Regional Championships [West and East], October 28-30, will also be considered for selection.

2]

The qualifying standards for the 2016 World Short-Course Championships are based upon the average of the 12th best heat times in individual events at the two previous World Short-Course Championships [2012, Istanbul and 2014, Doha]. For distance events the qualification yardstick will be the average 12th best overall position from the last two Championships.

3]

If there are more than two qualifiers in an event, swimmers will be selected according to their current form and fitness level. Achieving the qualifying standard is no guarantee of being offered a place in the final team. Selected swimmers must demonstrate their current fitness level in the 3 months prior to the Championships. Normally they will be asked to race within 1% of the qualifying time for their selected event.

4]

Relay teams will be selected at the discretion of the High Performance Manager and the National Head Coach but will only be considered if they have a realistic chance of making the final.

Nick Juba
National Head Coach
June, 2016

Qualifying Time Standards

Male

Female

Free

50m	21.70	24.83
